

She's Going to Get Even

My baby likes to walk the dog
She gives me money for my favorite cause
My baby's a chicken fryer
She changed my flattened tire
My baby likes to walk the dog

My baby don't care what I do - she don't care, she don't care
My baby's got a real good attitude - she don't care, she don't care
My baby don't listen to the neighbors
Talking about my bad behaviors
My baby don't care what I do - uuu, uuu, uuu

Chorus

*But there'll come a time - there'll come a time
My friends all say - we all say
When she's going to tire of your self centered ways
But my friends they don't know nothin'
They are all just huffin' and puffin'
My baby don't care what I do*

My baby don't like those sparkly things - yes she does, yeah she does
She don't like diamonds or golden rings - oh yes she does, yeah she does
My baby don't like that stuff
She tells me i'm more than enough
My baby don't like those sparkly things

Chorus

She's going to get even with you
She's going to get even with you
She's going to get even with you
She's going to get even with you

Chorus

She's going to get even with you
She's going to get even with you
She's going to get even with you
She's going to get even with you
