

## La Dee Da Tune

I've been thinkin' about the whole situation  
How the weight of the world is grippin' the nation  
Don't know what a man can do  
In the face of all this gloom and doom

I could sit around all day and contemplate my navel  
Start drinkin' early and pass out at the table  
Grow a lot of facial hair and howl at the moon  
Or I could sing a little la dee da tune

### Chorus

*Why you wearing that frown  
The sun's coming up and the sun's going down  
Instead of all this gloom  
You ought to start singing a la dee da tune*

La de da - everybody knows that the oceans are rising  
La de da - they spotted Godzilla just beyond the horizon  
La de da - It's snowing down in Texas in the middle of June  
We gotta start singing a La Dee Da tune

### Chorus

La de da - My dog is out barking again at the neighbors  
La de da - I forgot to put the garbage in separate containers  
La de da - I woke up this morning' looking like a stoned raccoon  
I gotta start singing some La Dee Da tune

### Chorus

La de da - This world is an accident that's already happened  
La de da - That was written on a wall down in lower Manhattan  
La de da - So if your mind is about to go boom  
You better start singing some La Dee Da tune  
La de da [repeat]

And have yourself a very nice day!
